G20 Dinner invite sparks big buzz: Oppn leaders slam govt over 'Prez of Bharat'

INDIA THAT IS BHARAT

The Narendra Modi-led Central government, which has been emphasising liberating the people of the country from the "slavery mentality" and any elements related to such a psyche during the ongoing "Amrit Kaal", is reportedly planning to remove the word "India" from the Constitution, sources in the know of things claimed, adding that a preparation pertaining to the proposal is underway. The sources said said at the upcoming Special Session of the Parliament scheduled to be held from September 18-22, the government is likely to present Bills related to the 'India' word omission proposal.

▶ The controversy has erupted just two days after the chief of the Rashtriya Swayamsevak Sangh (RSS), the BJP's ideological mentor, suggested that the country discard India and switch to Bharat.

▶ The Presidential invite is not a one-off. "Bharat" has also been used in a G20 booklet meant for foreign delegates titled "Bharat, The Mother Of Democracy".

▶ "Bharat is the official name of the country. It is mentioned in the Constitution as also in the discussions of 1946-48," the booklet says.

This marks a significant shift in nomenclature on the international stage as the country prepares to host US President Joe Biden, UK Prime Minister Rishi Sunak and other top world leaders.

President Droupadi Murmu's invite to G20 foreign leaders and Chief Ministers for a dinner on September 9. Amid buzz about the country's name change and the possibility of the government sealing the move in parliament in the five-day special session from September 18, the opposition held a series of meetings. Leaders denied reports that the opposition would skip the session. Amid surprise and criticism, BJP leaders

said the term "Bharat" is also in Article 1 of the Constitution, which says: "India, that is Bharat, shall be a Union of States."

Opposition parties linked the government's move to the name of their front to take on the BJP in 2024 - INDIA or Indian National Developmental Inclusive Alliance. Leaders of the INDIA bloc met at Congress president Mallikarjun Kharge's home to discuss strategy.

The India versus Bharat debate heated up after the opposition alliance adopted the acronym INDIA in July. BJP leaders welcomed the "Bharat" nomenclature.

Congress gathers at Sonia's house, INDIA meet later

New Delhi: The buzz about the change of the country's name from "India" to "Bharat" has started a flurry of meetings in the Opposition camp. A meeting of Congress's parliamentary leaders is in progress at the house of Sonia Gandhi. It will be followed by a meet of opposition bloc INDIA leaders at the residence of party chief Mallikarjun Kharge. The buzz had exploded this morning with the news that the President Droupadi Murmu's invite to G20 leaders introduces her as the "President of Bharat" instead of the traditional "President of India".

"Why does Congress has so much objection on every subject related to the honour and pride of the country? Why those doing political tours in the name of Bharat Jodo (Yatra) hate the slogan of Bharat Mata Ki Jai."

JP Nadda, President, BJP

"I don't understand what is wrong in writing President of Bharat. If we don't use Bharat name as Bharat, then what we will use. Our country is Bharat, so there should not be any doubt on this."

Rajeev Chandrasekhar, MoS, Electronics and Technology

"What is the problem of Congress party. They did Bharat Jodo Yatra, why they did not name it India Jodo Yatra. When you think it will benefit you, then you take Bharat name, when you feel it will not benefit you, you take India name."

Himanta Biswa Sarma, CM, Assam

"Article 1 in the Constitution can read: 'Bharat, that was India, shall be a Union of States'. But now even this 'Union of States' is under assault. After all, what is the objective of INDIA parties? It is BHARAT-Bring Harmony, Amity, Reconciliation And Trust. Judega BHARAT, Jeetega INDIA."

Jairam Ramesh, General Secretary, Congress

"BJP is fearful of INDIA alliance. I am asking, if we change the name of our alliance from INDIA to Bharat, what will they do? They will change the name of country to BJP?"

Arvind Kejriwal, CM, Delhi

"This is a blatant attempt to distort the history of the country. They are always trying to do this. But it is not acceptable to us."

Mamata Banerjee, CM, West Bengal

India does not have a statutory sentencing policy till date: Supreme Court

Team Absolute | New Delhi

The Supreme Court has observed that India does not have a statutory sentencing policy till date and while imposing sentence, the courts take aggravating and mitigating circumstances of a case into consideration.

In a recent judgement, a bench of Justices Abhay S Oka and Sanjay Karol while hearing a criminal appeal, reduced the sentence imposed on the appellant from 5 years to 3 years in the interest of justice.

The special leave petition was filed against an order of the Allahabad High Court in 2019, confirming the decision of the trial court rendered in 1987 sentencing Pramod Kumar Mishra for 5 years rigorous imprisonment under Section 307 IPC (attempt to

murder). In appeal, the Supreme Court was considering whether the sentence imposed by the trial court and as upheld by the high court is just and proper.

The apex court noted that India does not have a sentencing policy till date and in the absence of such guidelines in India, the courts go by their own perception about the philosophy behind the prescription of specified penal consequences for a particular crime.

Referring to a precedent, it said that courts have a primary duty to delicately balance the aggravating and mitigating factors and circumstances in which a crime has been committed. It noted that 39 years have passed since the date of offence and the other accused persons were also acquitted in the case.

VERDICT IN PLEAS CHALLENGING ABROGATION OF ARTICLE 370 RESERVED

New Delhi: A 5-judge Constitution Bench, headed by CJI D.Y. Chandrachud, on Tuesday reserved its judgment in the batch of petitions challenging the 2019 Presidential Order taking away the special status accorded to the erstwhile state of Jammu and Kashmir and its bifurcation into two Union Territories.

"We must end it with a vote of thanks to all the members of the bar. Thank you very much," said the bench, also comprising Justices Sanjay Kishan Kaul, Sanjiv Khanna, B.R. Gawai, and Surya Kant. The Constitution Bench, which included the five senior most judges of the Supreme Court, commenced hearing the matter from August 2. It will deliver its judgment soon after it has reserved the verdict on hearing oral arguments from both sides.

Team Absolute | Bhopal

Union Home Minister Amit Shah could not reach Sheopur due to bad weather. He addressed the gathering over the phone itself. Shah said that due to rain in Gwalior the helicopter could not fly to Sheopur. But I will definitely come to Sheopur during this election campaign.

DOMESTIC SUGAR PRICES RISE 3% TO 6-YR HIGH OWING TO POOR RAINS

New Delhi: Domestic sugar prices have risen by 3 per cent in the last 15 days to their highest levels in six years, according to industry sources.

Owing to shortfall in rains in the sugarcane growing regions, the prices have risen even as the festival season is round the corner, when consumption of sweets is set rise manifold.

This could add to food inflation and discourage the government from allowing sugar exports, supporting global prices which are near their highest in more than a decade.

Sugar prices rose to Rs 37,760 per metric tonne on Tuesday, highest since October 2017. Keeping in view the strong demand for sugar during the upcoming festival season, an additional quota of 2 lakh metric tonnes (over and above 23.5 LMT allocated for the month) was allocated for August by the government.

Breather for Maha govt as Maratha leader extends GR ultimatum by 4 days

Jalna (Maharashtra) | Agencies

Spelling a respite for the Maharashtra government, Maratha leader Manoj Jarange-Patil on Tuesday extended his ultimatum to issue a GR on Maratha reservations by four days, while deciding to continue his agitation.

Speaking to media persons, Jarange-Patil made it clear that if the state failed to issue a Government Resolution (GR) in four days, then he would go off water too. His statements came after a 3-minister delegation called on him this evening to convey the government's stance on the issue of Maratha quotas in education and jobs, for which the Marathas have been agitating for the past

eight days at Antarvali-Sarati village. Since Sunday, government delegations of ministers, MPs, legislators and others have met Jarange-Patil on at least five occasions and made attempts to convince him to withdraw his hunger strike, but he has not budged.

This evening, a delegation led by Minister Girish Mahajan and two other ministers, called on Jarange-Patil and requested for a month's time to come out with GR on the

Maratha quotas. After much cajoling, Jarange-Patil agreed to extend his deadline from Tuesday by four more days - till Saturday - for the government to comply, failing which he threatened to intensify the agitation.

"Girish Mahajan has informed that he will revert within four days. I have also made it clear that they have four days' time only to implement their assurance. Thereafter, I shall be off food, saline, and water. We respect you but you should also understand us," said Jarange-Patil. He has proposed that the government should include Marathas in the Kumbi community which figures in the OBC quotas, and this will enable the GR survive any legal challenge, but the response of the government is not clear yet.

Over 75% believe kids at major risk of sexual abuse when using VR headsets

▶ According to the report, sex offenders are using games that simulate sexually abusing a child on the dark web and through private networks, so they can simulate abusing children online the way they would offline.

▶ About 52 per cent of children have remained silent about the sexual abuse they have experienced.

▶ The report also explored the broader issues of depersonalisation and dissociation in VR. Users can often experience a dissociated feeling when leaving an immersive space; the feeling that the world around them is not real.

London | Agencies

More than 75 per cent of people believe that 6 to 12-year-old kids are at major or significant risk of sexual abuse in VR (virtual reality) immersive spaces, a new report said on Tuesday.

About 80 per cent of people said that 13 to 16-year-olds are at major or significant risk of sexual abuse in VR immersive spaces, according to the UK-based child protection charity National Society for the Prevention of Cruelty to Children (NSPCC).

According to the researchers, VR technologies can cause people

to experience "phantom touch". This is where the brain fills in the gaps in sensory input and causes the body to experience sensations similar to physical touch, meaning kids who experience VR sexual abuse might experience the physical sensation of being touched without their consent. "These shocking findings should be a wake-up call to us all about the

harm young people are facing when engaging with immersive technology," said Richard Collard, Head of Child Safety Online Policy at the NSPCC. "Technology will continue to progress, and so must we ensure that we can understand the existing and emerging risks that young people face in these virtual spaces," he added. "Victims have also been known to dissociate from their body as part of a trauma response. Therefore, there could potentially be a heightened risk of dissociation when a child suffers sexual abuse in a VR space. The research found that offenders also experience this dissociation," the researchers said.

ISRO RELEASES 3D IMAGE OF MOON'S SURFACE

Team Absolute | New Delhi

The Indian Space Research organisation on Tuesday put out a 3-dimensional 'anaglyph' image of the Chandrayaan-3 Vikram lander from the south pole of the Moon.

This image features the left image within the red channel, and the right image within the blue and green channels, resulting in a striking cyan hue.

"The Anaglyph presented here is created using NavCam Stereo Images, which consist of both a left and right image captured onboard the Pragyan Rover," the space agency said on X (formerly Twitter).

Anaglyph is a simple visualization of the object or terrain in three dimensions from stereo or multi-view images. "In this 3-channel image, the left image is positioned in the red channel, while the right image is placed in the blue and green channels (creating cyan). The difference in perspective between these two images results in the stereo effect, which gives the visual impression of three dimen-

sions. Red and cyan glasses are recommended for viewing in 3D," ISRO stated.

Red and cyan glasses are recommended for viewing in 3D. NavCam was developed by LEOS/ISRO. Data Processing is carried out by SAC/ISRO, the space agency added.

Notably, these images were released just a day after ISRO announced that the 'Vikram Lander' has been set into sleep mode at around 8 am (Indian Standard Time) on Monday morning.

ISRO said that the data collected by the payloads is received at the Earth and the Payloads are now switched off. It is expected by ISRO that Vikram Lander and Pragyaan will awake again on around September 22.

UNION GOVT FILES SUGGESTIONS BEFORE SC ON SETTING UP EXPERT PANELS TO DETERMINE HIMALAYAN REGION'S CARRYING CAPACITY

Team Absolute | New Delhi

The Union Environment, Forest and Climate Change Ministry has filed its suggestions before the Supreme Court on the constitution of the expert committee to determine the carrying capacity of the ecological fragile Indian Himalayan region.

The Centre suggested that all 13 Himalayan states may be directed to submit an Action Taken Report and an Action Plan to carry out the carrying capacity assessment in a time bound manner.

The Union government proposed formation of a Committee headed by the Chief Secretary of the respective State and comprising other members for carrying out a multi-disciplinary study as per guidelines prepared by G.B Pant National Institute of Himalayan Environment.

It sought directions for formation of a Technical Committee to examine or evaluate the carrying capacity studies prepared by the Himalayan states and to forward its report to the respective states for implementation.

On August 21, the Supreme Court called for suggestions from the Union government over formation of an expert committee to assess the

"carrying capacity or bearing capacity" of the ecological fragile Indian Himalayan region against the backdrop of the recent land cracking and sinking issues in Uttarakhand's Joshimath.

A bench, headed by CJI D.Y. Chandrachud and comprising Justices J.B. Pardiwala and Manoj Misra, had mooted formation of an expert panel to carry out a comprehensive study after the petitioner had pointed out that the "carrying

capacity" template was formed by the government in the past and there is a need to undertake a comprehensive study by expert institutions.

During the hearing, Additional Solicitor General Aishwarya Bhati, who represented the Centre, had said that the Union government has circulated Guidelines for Assessing Carrying Capacity of Hill Stations including Cities and Eco-Sensitive Zones to all 13 Himalayan states in

2020 and has also sent another reminder in May this year requesting the states to submit their action plans. The plea claimed the Indian Himalayan Region, spread across 13 states/Union Territories (UTs), is facing issues of unsustainable and hydrologically disastrous constructions - home stays, hotels, and commercial accommodations, hydropower projects and unregulated tourism, which has allegedly collapsed the drainage and waste management system.

The plea filed by Ashok Kumar Raghav said these governments have failed in preparing and implementing the master plans, tourism plans, lay-out, area development or zonal plans.

It added that due to non-existent carrying of bearing capacity studies, grave geological hazards in the form of landslides, land subsidence, land cracking and sinking issues such as that in Joshimath and previously as flash floods or glacial bursts in Kedarnath (2013) and Chamoli (2021), are being witnessed and serious ecological and environmental degradation is taking place in the hills. Notably, the top court has said that it desired to restrict the scope of proceedings to Himalayan regions rather than all states of the country.

Dhugguri by-election: Polling concludes peacefully with over 80% turnout

Kolkata | Agencies

The by-election to the Dhugguri Assembly constituency in West Bengal's Jalpaiguri district concluded peacefully on Tuesday with over 80 per cent voter turnout, the office of the Chief Electoral Officer (CEO) said.

The officials added that the exact polling percentage will be slightly higher as some voters were still standing in queues at some polling booths even after the expiry of the scheduled polling time.

Political observers feel that the polling percentage recorded so far is quite high considering the trend of lower turnout in by-elections.

The CEO officials said the polling process was peaceful on Tuesday, with hardly any complaint received from any political party throughout the day.

The counting of votes will be taken up on September 8.

The bypoll in Dhugguri was necessitated by the sudden demise of BJP legislator Bishnu Pada Roy on July 25. Roy had come to Kolkata to

participate in the monsoon session of the Assembly. He was admitted to a city hospital after he complained of the chest pain. He died soon after being admitted to the hospital.

The bypoll is witnessing a three-way fight between Trinamool Congress, BJP and Congress-backed CPI(M).

The BJP has fielded Tapasi Roy, the widow of CRPF jawan Jagannath Roy who was martyred in a terror attack at Lawaypora in J&K

on March 25, 2021. The Trinamool has fielded Nirmal Chandra Roy, a professor at the Dhugguri Girls College, while the Congress-backed CPI(M) candidate is Ishwar Chandra Roy.

In the 2021 Assembly elections, BJP's Bishnu Pada Roy had defeated sitting Trinamool MLA Mitali Roy by a margin of 4,355 votes. Being denied re-nomination in the bypoll, Mitali Roy joined the BJP just a couple of days ago.

Congress' Randeep Surjewala Calls CM Chouhan 'Phisaddi', Says 'Likening Him To Dhoni Is Huge Disrespect Of The Iconic Cricketer'

Team Absolute | Bhopal

The likening of Madhya Pradesh Chief Minister Shivraj Singh Chouhan to former India captain Mahendra Singh Dhoni is huge disrespect of the legendary cricketer, said Congress' Randeep Surjewala on Tuesday referring to Union Defence Minister Rajnath Singh's recent statements.

Chouhan is "such a player" to whom one will not even give an opportunity for "trials" and that he gets himself out hit-wicket, said the Congress general secretary in-charge of MP, where assembly elections are due by November.

Singh on Monday heaped praise on Chouhan for his leadership qualities and sought to compare him with Dhoni, who was known for his match-winning abilities. Like Dhoni, who led India to the 2011 ODI World Cup victory, Chouhan will also pull off win in the polls, he said.

Calls Chouhan 'Phisaddi' Responding to a question on Singh terming Chouhan as Dhoni of politics, Surjewala said, "It is the biggest disrespect of our best player. He (Chouhan) is a 'phisaddi' (failed) player to whom no one will give an opportunity even for trials. Whenever he holds a bat, he gets

himself out hit-wicket. Here Madhya Pradesh gets hit-wicket." Asked about the speculation that the government is planning to drop India and stay with just Bharat as

the country's name, the Congress leader said, "They (BJP govt) will never talk about unemployment, agriculture, drought, compensation, inflation, hatred and progress." Surjewala said the government will keep people entangled in such "webs and propaganda". It is like a "web of Shakuni (character from epic Mahabharat)".

Dodges question on Stalin On the controversial statement of DMK leader Dayanidhi Stalin about 'Sanatan Dharma', Surjewala said he had not heard the exact word or understood its meaning as he didn't know the south Indian language in which it was made.

SHOWER OF FREEBIES

Even though the entire Opposition has been accusing the BJP of being in election campaign mode round the year, top BJP leaders, however, say that every decision taken by the Modi government is in the interest of the country and is the reason for some bold decisions. The BJP leaders say that the Centre did not shy away from taking bold political decisions, for instance demonetisation, GST implementation, etc. And, as far as elections are concerned, the government focuses only on governance for the first four years of its term and then enters electoral politics in its fifth and final term, the BJP says. If seen from this perspective, the fifth year of the second term of the Modi government has already begun, that is the poll bugle for the election year has started for which the BJP has entered the electoral field by dedicating various major announcements for the people. Recently, the Modi government's announcement to slash the prices of LPG gas cylinders by Rs 200 on the occasion of Raksha Bandhan has once again brought the issue of 'revdi politics' (offering freebies) at the forefront before the crucial upcoming general and several Assembly elections in the country. The BJP leaders are refusing to say that this decision by the Modi government is a 'freebie'. According to a top cabinet minister in the Modi government, the Prime Minister can make several big announcements in the coming days to ease the difficulties of the people, to reduce the economic burden on them and to improve their standard of living. The Modi government is making a poll pitch dedicating development projects for the people of the country. It is clear that political tussle regarding 'Revdi politics' and 'Revdi culture' is likely to continue in the future.

INDIA TO POSITION ITSELF AS THE 'VOICE OF GLOBAL SOUTH' AT G20 SUMMIT

Animesh Singh

The New Delhi G20 summit, scheduled to be held between September 9 and 10, is just round the corner and is being highlighted as one of the key achievements of the government in positioning India as the voice of the Global South. After two days of intense deliberations, the G20 Summit will culminate with a New Delhi Declaration, which is expected to outline the main agenda items namely climate change and climate finance, the role of multilateral development banks (MDBs) in poverty alleviation, advancement on sustainable development goals, technological transformation and digital public infrastructure and most significantly the socio-economic consequences of the Russia-Ukraine conflict. India has always shared its developmental experience with our brothers of the Global South. As India begins its G20 Presidency this year, it is natural that our aim is to amplify the Voice of the Global South," he had added. With the theme for India's G20 presidency being 'Vasudhaiva Kutumbakam', or 'One Earth, One Family, One Future', a phrase, which originates from the ancient Sanskrit text Hitopadesha, the government has consistently used it to establish its foreign policy.

India aims to make maximum use of the diplomatic opportunity which it has got as president of the G20 and therefore almost all the countries have confirmed their presence for the forthcoming G20 summit. The G20 grouping consists of nations which contribute to around 80 per cent of the global GDP and more than 70 per cent of international trade. The G20 Summit will see the presence of around 25 world leaders, including US President Joe Biden, British PM Rishi Sunak, French president Emmanuel Macron and Canadian Prime Minister Justin Trudeau, among others. According to sources, except for Russian president Vladimir Putin, almost all G20 leaders have confirmed their presence for the New Delhi G20 summit. On August 28, Putin in a telephonic conversation with prime

minister Narendra Modi, had conveyed his inability to attend the G20 summit in New Delhi and informed that Russia would be represented by his foreign minister Sergey Lavrov. US president Joe Biden in fact is arriving on September 7 on a four-day bilateral visit, during which he will also attend the G20 summit. Chinese President Xi Jinping's presence in the multilateral event is yet to be confirmed. On August 11, when asked about it, the External Affairs Ministry's Spokesperson Arindam Bagchi had said that the government has invited all participants and looked forward to their participation. Mexico's delegation may also not be led by its President Andrés Manuel López Obrador, and its Minister for Economy Raquel Buenrostro Sanchez is likely to represent the country in the summit. Here is the complete list of G20 member states invited to the sum-

mit: Prime Minister of Australia Anthony Albanese; Argentina President Alberto Fernandez; President of South Africa Cyril Ramaphosa; President of France Emmanuel Macron; Prime Minister of Japan Fumio Kishida; Prime Minister of Italy Giorgia Meloni; US President Joe Biden; President of Indonesia Joko Widodo; Prime Minister of Canada Justin Trudeau; President of Brazil Luiz Inacio Lula Da Silva; Crown Prince and Prime Minister of Saudi Arabia Mohammad Bin Salman; Chancellor of Germany Olaf Scholz; President of Turkey Recep Tayyip Erdogan; Prime Minister of the United Kingdom Rishi Sunak; President of China Xi Jinping; President of South Korea Yoon Suk Yeol; and President of European Commission Ursula von der Leyen. The multilateral event will also see

participation from Charles Michel, President of the European Council. In addition to this, India has also invited leaders from nine nations who are not a part of the G20 Cohort. These are Bangladesh Prime Minister Sheikh Hasina, Egyptian President Abdel Fattah El Sisi, Mauritius Prime Minister Pravind Kumar Jugnauth, Netherlands Prime Minister Mark Rutte, Nigerian President Bola Ahmed Tinubu, Singapore Prime Minister Lee Hsien Loong, Spain President Pedro Sanchez, President of UAE Sheikh Mohamed bin Zayed Al Nahyan and Sayyid Asad Bin Tariq Al Said, Deputy Prime Minister of Oman and personal representative of the Head of State Sultan Haitham bin Tarik.

MOSCOW READY TO REVIVE BLACK SEA GRAIN DEAL AS SOON AS ITS DEMANDS ARE MET: PUTIN

Russian President Vladimir Putin has said that Moscow would return to the Black Sea grain deal as soon as its requirements are met. "We will be ready to revive the grain deal, and we will do this as soon as all restrictions on the export of Russian agricultural products are lifted," Putin added on Monday at a press conference following talks with his Turkish counterpart Recep Tayyip Erdogan in the Russian city of Sochi. He said that Russia's grain harvest could reach 130 million ton this year, and the country's export potential would remain at 60 million ton, Xinhua news agency reported. He added that Moscow is not opposed to the grain deal, but warned Ukraine against using grain export corridors for mili-

tary purposes. Erdogan noted that Turkey had been working on a new package of proposals together with the UN. He expressed confidence that the proposals would help resume the deal as soon as possible. The Russian leader further said that Moscow will continue

exporting food and fertiliser to help stabilise global food prices. He added that Russia, Turkey and Qatar would work jointly to deliver one million tonne of Russian grain to countries in need. The initiative will contribute to solving the global food crisis, Putin said, adding however that it shouldn't be viewed as an alternative to the Black Sea grain deal. The two leaders also discussed bilateral energy and trade relations, including the joint construction of the Akkuyu nuclear power plant. The Russian President noted that the plant's first unit is expected to be launched next year. Putin further confirmed Moscow's readiness to establish a regional gas hub in Turkey to deliver gas supplies to third countries. The two Presidents also discussed the Ukrainian crisis and global ceasefire proposals aimed at achieving a political settlement. Putin thanked Erdogan for his mediation efforts, and reiterated that Moscow remained open for dialogue. Erdogan in turn confirmed that Turkey is ready to act as a mediator between Russia and Ukraine, and remains committed to establishing lasting peace and stability.

Another cyclone likely to make landfall in China

Beijing: Another tropical cyclone is expected to make landfall in or have a major impact on China in late September, bringing gales and heavy rains to the country's southern and southeastern regions, an official said on Tuesday. Local authorities should take precautions to reduce the repercussions on people's lives, said Jia Xiaolong, deputy director of the National Climate Centre. China has already been hit by Typhoon Saola and Haikui from the starting of this month, reports Xinhua news agency. The country will see an uneven distribution of rainfall in September, with parts of Heilongjiang and Xinjiang expected to receive precipitation 20-50 per cent higher than average. However, parts of Hebei, Shanxi, Henan, Shandong, Jiangsu, Anhui, Hubei, and Shaanxi will have less rainfall than normal years this month. Some parts of the country, including Beijing, Tianjin, Hebei, Shanxi, and Inner Mongolia, will see temperatures slightly higher than in normal years, Jia said.

Jill Biden tests positive for Covid-19

Washington | Agencies US First Lady Jill Biden has tested positive for Covid-19, the White House announced. "This evening, the First Lady tested positive for Covid-19. She is currently experiencing only mild symptoms. She will remain at their home in Rehoboth Beach, Delaware," CNN quoted Biden's spokesperson Elizabeth Alexander saying in a statement on Monday night. President Joe Biden, 80, tested negative, according to the White House. An administration official told CNN that there were no changes to White House Covid protocols or to the President's schedule at this time. The diagnosis of the 72-year-old First Lady comes amid a busy week for the President, who delivered a Labor Day speech in Philadelphia earlier in the day. He is scheduled to present the Medal of Honor to an Army captain in a White House ceremony Tuesday before departing for the G20 Summit in New Delhi, India. The First Lady had tested positive

for Covid-19 while vacationing in South Carolina in August 2022, just a month after the President was diagnosed with the virus. Both experienced rebound cases shortly after being treated with Paxlovid. Jill Biden's diagnosis comes amid renewed attention to Covid-19 as the world approaches the fourth virus season since the global outbreak in early 2020, CNN reported. In the US, there were about four new hospital admissions for every 100,000 people in the week ending August 19, which is considered low, according to the CDC. While seven countries had high levels of Covid-19, 117 countries -- about 3.6 per cent of the country -- were in the medium threshold.

Kim Jong-un likely flaunting daughter at military events to elicit loyalty: Seoul

Seoul | Agencies North Korean leader Kim Jong-un has mainly brought his daughter, Ju-ae, to military-related events in an apparent bid to highlight his feats in the military sector and elicit the loyalty of the armed services, South Korea's Unification Ministry said Tuesday. Kim's daughter has made public appearances on 15 occasions since she made her first one in November 2022, and 12 cases of the total, or 80 per cent, were at military-related events, the Ministry said citing reports by the Rodong Sinmun, the North's main newspaper. In contrast, she attended events related to the economy and social affairs three times, Yonhap News Agency quoted the Ministry as saying. Ju-ae, believed to be around 11 years old, was first reported by state media on November 18, 2022 when she, along with her father, attended the firing of a Hwasong-17 intercontinental ballistic missile. Since then, her public appearances have been focused on the military field, including a military parade in February and an inspection

in May of a facility to prepare the launch of the country's first spy satellite. North Korean state media have carried a total of 107 photos featuring her. Of them, seven photos were placed on the front page of the Rodong Sinmun, and 80 photos, or 75 per cent, showed her right next to Kim Jong-un. Despite an increase in her appearances in state media, many North Korean observers see the possibility of Ju-ae becoming a hereditary successor as low, given the country's patriarchal society and the rumoured existence of an eldest son among Kim's children. South Korea's spy agency told lawmakers Monday that it is "hasty" to judge that Ju-ae has been anointed as the successor, as North Korea, a male-dominant society, is "obsessed" with the Paektu bloodline of Kim's royal family.

Thousands of festival attendees in Nevada struggle to leave due to torrential rain

Los Angeles | Agencies Thousands of people were struggling to leave a remote desert in western US state of Nevada, after they had been stuck in the mud at the annual Burning Man Festival due to days of torrential rain. Each year, the annual arts and music festival attracts around 70,000 attendees to the Black Rock Desert in northern Nevada to create Black Rock City, a temporary metropolis dedicated to community, art, self-expression and self-reliance. This year's event, which began on August 27 and was scheduled to run through Monday, has drawn national attention as its exit gates were forced to be closed after a rare storm on Friday, Xinhua news agency reported. In a Facebook post on Sunday, Pershing County Sheriff's Office said that most Burning Man Festival operations had been halted or significantly delayed "due to unusual weather conditions on the playa". There had been mild to heavy rain

for several hours, causing conditions that made it virtually impossible for motorised vehicles to traverse the playa, according to the Sheriff's Office. The Sheriff's Office also said that it

was investigating a death which occurred during the rain event but there was no further information available at this time. The organisers of the event said on Sunday that some vehicles with 4WD and all-terrain tyres were able to navigate the mud and were successfully leaving. "But we are seeing most other types of vehicles that try to depart getting stuck in the wet mud which hampers everyone's exodus," they said, urging attendees "do not drive at this time". The organisers asked attendees to "take shelter in a warm, safe place" and "conserve your food, water, and fuel" in a wet playa survival guide. "Gate road remains a bit too muddy and there is still too much standing water along it for large numbers of vehicles to safely navigate out of the event this morning, but it is drying up," said the organisers in a Facebook post on Monday morning, adding that they anticipate that exodus will be able to officially begin later Monday.

PRO-QUOTAS STIR: MARATHA PROTESTERS DON'T BUDGE, INSIST ON GR

Team Absolute | Jalna

Leader of the Maratha Kranti Morcha, Manoj Jarange-Patil on Tuesday remained adamant on his stance that the Maharashtra government should issue a Government Resolution (GR) on Maratha quotas before he would call off his indefinite hunger strike here.

A delegation led by ruling ally Shiv Sena leader Arjun Khotkar and others met Jarange-Patil again and requested him to call off his fast and give a month's time to the government for finalising the reservations in a fool-proof manner that would stand legal scrutiny.

However, Jarange-Patil refused to oblige and has vowed to continue his hunger strike even as another delegation sent by Chief Minister Eknath Shinde will reach here later this afternoon.

"Our expectation is a decision and the GR. The entire state is hopeful that we will get the reservations today," said Jarange-Patil, lying on a mattress due to increasing weakness.

Appearing to be in frail health, he warned on Monday night that if the government doesn't announce its decision on Tuesday, then he would

also stop drinking water, triggering fresh concerns. Meanwhile, Vanchit Bahujan Aghadi (VBA) President Prakash Ambedkar is likely to visit Jarange-Patil in Antarvali-Sarati village which was the scene of a massive police crackdown including caning and tear-gassing, on the protesting

crowds there on September 1. Besieged by a huge political backlash from the Maratha community and wide condemnation from across the political spectrum, Deputy Chief Minister Devendra Fadnis on Monday tendered an apology to the victims of the police clampdown being treated in local hospitals.

Ambedkar meets protesters, backs Maratha quotas agitation

Jalna: Vanchit Bahujan Aghadi (VBA) President Prakash Ambedkar, along with senior leaders, on Tuesday called on Maratha Kranti Morcha leader Manoj Jarange-Patil who is currently on a hunger strike since August 29.

Accompanied by Prof. Dhairyavardhan Pundkar, Prof. Kisan Chavan, Ashok Hinge-Patil, Savita Munde, Amit Bhuigal and others, Ambedkar went to the tent where Jarange-Patil is carrying on the protest and expressed his support to their cause at the Antarvali-Sarati village this afternoon.

On seeing Jarange-Patil's frail condition, the VBA chief appealed to him to take care of his health to carry forward the agitation successfully ahead.

Referring to the Maratha leader's recent statements that the government may target the protesters, Ambedkar urged Jarange-Patil not to talk of "dying" and said if he is not around, then who will lead the agitation.

"I plead on behalf of all that Jarange-Patil should not speak about 'dying'... Better to kill than die! And prove your point... For this is our country, in a democracy, people are the real masters. All should take note," declared Ambedkar.

Jarange-Patil has reiterated that he will discard consuming even water from Tuesday if the government failed to bow to the Marathas reservations demands.

No one has right to change country's name: Sharad Pawar on 'Bharat' invite

Team Absolute | Jalgaon, Maharashtra

Nationalist Congress Party (NCP) president Sharad Pawar today said no one has the right to change the country's name, after the Congress claimed that a G20 dinner invite refers to the President as "President of Bharat".

Sharad Pawar said there will be deliberation on the issue in a meeting convened on Wednesday by Congress president Mallikarjun Kharge with chiefs of the parties which are part of the INDIA alliance, an opposition bloc of 28 parties aiming to take on the BJP-led Centre in next year's general elections. "I don't understand why

the ruling party is perturbed over a name related to the country," the NCP chief told reporters at a press conference in Maharashtra's Jalgaon district.

Asked whether the name of India will be changed in the Constitution, Sharad Pawar said, "I don't have any information on it."

Pawar said Congress president Mallikarjun Kharge has

called a meeting of all party heads of the INDIA alliance on Wednesday.

"There will be deliberation on this in the meeting, but no one has the right to change the name (of the country). No one can change the name," the NCP chief said.

The Congress on Tuesday alleged that the "Union of States" is under assault by the Modi government as it claimed that a G20 dinner invite refers to the President as "President of Bharat".

The G20 Summit will be held in New Delhi from September 9 to 10 under India's presidency and several heads of state from across the world, including US President Joe Biden, are attending the event.

INDIA NAME 15-MAN ODI WORLD CUP SQUAD, KL RAHUL IN, SANJU SAMSON MISSES OUT

Team Absolute | New Delhi

KL Rahul has been included in India's World Cup 2023 squad, marking his return from a lengthy injury layoff, as the BCCI confirmed the 15-member squad on Tuesday.

Batter Suryakumar Yadav also managed to hold on to a spot in the squad for the marquee event with regular skipper Rohit Sharma leading the side and all-rounder Hardik Pandya as his deputy.

Rahul, who last played an ODI in March this year, injured his thigh earlier in the year at the IPL, though has been training at the National Cricket Academy in Bengaluru, and preparing to fly out to Sri Lanka for the Super Four stage of the Asia Cup.

With Rahul in the squad, Sanju Samson, who is a reserve player at the Asia Cup, has missed out, as well as Tilak Varma and Prasidh Krishna as other omissions.

Rohit leads the batting group, with Shubman Gill, Virat Kohli, Shreyas Iyer and Suryakumar Yadav all named, as well as Ishan Kishan, who provides another keeping option.

Hardik, Ravindra Jadeja, Axar Patel and Shardul Thakur will be the all-rounders in the team.

After making a successful return from a long injury layoff, Jasprit Bumrah spearheads the bowling group, with Mohammed Shami and Mohammed Siraj are the designated pacers while Kuldeep Yadav is the specialist spinner in the squad. While the deadline to submit the World Cup squad to the ICC is September 5, teams can make changes until September 28 without needing approval from the ICC.

India will open their World Cup campaign on October 8, when they take on Australia in Chennai. India's World Cup squad: Rohit Sharma (captain), Shubman Gill, Virat Kohli, Shreyas Iyer, KL Rahul (wk), Ishan Kishan (wk), Suryakumar Yadav, Hardik Pandya (vice-captain), Ravindra Jadeja, Kuldeep Yadav, Axar Patel, Mohammed Siraj, Mohammed Shami, Shardul Thakur, Jasprit Bumrah

Asia Cup: Roaring Afghans lose their way as Sri Lanka win by 2 runs; seal Super Fours berth

Lahore | Agencies

Mohammad Nabi hammered the fastest ODI half-century for Afghanistan but they lost their way in the run chase as Sri Lanka won by two runs and made it to the Super Fours stage in the Asia Cup cricket tournament at the Gaddafi Stadium here on Tuesday.

After Sri Lanka rode on a superb 92 by Kusal Mendis and some vital contributions by the tailenders to post 291/8, Afghanistan had the challenging task of reaching the target in 37.1 overs. They were eventually bundled out for 298 in 37.4 overs and failed to register a historic win. Sri Lanka eventually finished on the top of the table with four points from two wins while Bangladesh also went through with two points. Afghanistan lost both

their matches and finished at the bottom of Group B.

But they came very, very close to making it to next stage and lost out only by the skin of their teeth.

Afghanistan mounted a brilliant chase, led by some brilliant batting by their middle-order -- Mohammad Nabi (65 off 32), skipper Hashmatullah Shahidi (59 off 66), Rahmat Shah (45 off 40) - as they nearly chased the target and almost grabbed the spot in the next round. Nabi completed his

half-century off 24 balls, the fastest fifty by an Afghan batter, as he slammed six boundaries and five maximums in his 32-ball 65 that kept Afghanistan in the hunt.

Afghanistan lost Nabi, Shahidi, and Karim Janat (22 off 13) as wickets fell at regular intervals. Former skipper Rashid Khan blasted 27 off 16 balls and along with Najibullah Zadran (23 off 15) dragged Afghanistan to 289/8 at the end of the 37th over. They needed two runs off the first ball of the 38th over but

Dhananjaya De Silva got Mujeeb Ur Rahman caught by Samarawickrama.

The Afghanistan team management seems to have lost track of the permutations and failed to convey the equations -- that in case the Afghans failed to reach 292 in 37.1 overs, they could have still qualified if they scored six runs in the next three deliveries.

Brief scores:

Sri Lanka 291/8 in 50 overs (Kusal Mendis 92, Pathum Nissanka 41; Gulbadin Naib 4-60, Rashid Khan 2-63) beat Afghanistan 289 all out in 37.4 overs (Mohammad Nabi 65, Hashmatullah Shahidi 59, Rahmat Shah 45; Rashid Khan 27 not out; Kasun Rajitha 4-79, Dhananjaya de Silva 2-12) by 2 runs.

lished a junior world record of 3:15.49 in the 4x100m freestyle relay, finishing ahead of Australia and Canada.

INDIA U-16S FOCUSED ON GETTING THE JOB DONE AGAINST NEPAL

Thimphu (Bhutan) | Agencies

India are just a point away from securing their berth in the semifinals of the SAFF U-16 Championship 2023 but their focus remains squarely on their last Group A match against Nepal.

Their aim now is to finish on top of the group. India began their campaign with a 1-0 victory over Bangladesh and are set to face Nepal at the Changlimithang Stadium here on Wednesday. Head coach Ishfaq Ahmed put off all talks about the possible permutations and combinations of their semifinal opponents, till the spot was actually secured.

"Yes, we have been watching all the matches of the other groups. If we top our group, we could play hosts Bhutan, and if we finish second, we will play Pakistan. I have assessed their strengths and weaknesses, but all that will come later," Ahmed told the-aiff.com on the eve of the match. "Right now, we must focus on getting the job done against Nepal."

As it currently stands, India are top of Group A with three points from one game, with a goal difference of +1, having defeated Bangladesh 1-0 in the opening game. Meanwhile, Bangladesh have

clawed their way back on the table, after defeating Nepal 1-0. A draw or a win will secure the top spot in the group for India, but a loss may make things more complicated.

While all the permutations and combinations exist, the Blue Colts are simply looking to earn three points to maintain their winning momentum. "It's a tricky situation, but we don't want to get

caught up in all the permutations and combinations. We just want to win and maintain our momentum," said Ahmed.

"For sure, they (Nepal) will try to push us hard and try to get the result, but I see that as a good thing for the boys. Putting them under such pressure situations from such early on in their careers will only help them in the future."

Ahmed kept a close watch on the match between Nepal and Bangladesh and believes that the side from the Himalayan nation can pack quite the punch.

Over the last few days in Bhutan, the India U-16s have had a number of tough training sessions, along with some good recovery sessions as well. Ahmed feels that the boys are now fairly acclimatised to the conditions in the mountains.

"I think the boys are now used to the altitude and the weather. They have improved a lot. Their first international game was a difficult one, and they showed a few nerves in the first half. But they showed good character to come back in the second half and combined well together. They can only get better from here."

However, the former India international winger feels that the team need to improve their efficiency in the final third.
